

Sub 4
B2
12. (Amended) The method of claim [11] 1 wherein said adjuvant is selected from the group consisting of *Bacillus Calmette-Guerin*, QS-21, detoxified endotoxin and a cytokine.

Sub 6
B3
16. (Amended) The method of claim 1 wherein said composition comprises [a maximum of about 7.5×10^6] at least 10^6 tumor cells or [c.e.] cell equivalents extract per dose.

18. (Amended) A composition for inducing an anti-tumor response in a mammalian patient suffering from a tumor comprising [a therapeutically effective amount of] a tumor cell or tumor cell extract that is:

- B4
- (i) conjugated to a hapten;
 - (ii) of the same tumor type as the patient's tumor;
 - (iii) not allogeneic to said patient, and
 - (iv) incapable of growing in the body of the patient after

injection;

wherein said [therapeutically effective amount of a] composition of a tumor cell or extract, when administered with an adjuvant, elicits an anti-tumor response, and comprises [being] a maximum of [about] 7.5×10^6 cells or [c.e.] cell equivalents extract per dose.

{ Please add the following new claim: }

B5
--24. The composition of claim 18 comprising at least 10^6 cells or cell
